

## BREXIT, here we go again...Are we all ready!!

### BREXIT PLANNING

As we are all aware with the "dreaded Brexit" pending or looming over us (again), we may have to take special measures to prepare for either a Hard exit leading to a worse trade deal than we are currently in, this could mean delays with sourcing raw material and goods to extra pricing from the EU sourced products.

What Supplyline ID are trying to do is plan for the future the best we can, so we are asking all customers to "*predict the future*" just a little and give us an idea of what products you may need in the next 2-3 months or even further if it helps your planning.

The main 2 areas that we think we could get the most issues would be **labels** (nearly all UK raw material comes from a EU based country) and **ribbons** (most manufacturers have their stock holdings in the EU for UK deliveries).

### LABELS & PRINTER / CODING RIBBONS

Supplyline are prepared to offer all current or new customers the chance to place orders before the end of October 2019 that we will hold in stock or buy the raw materials for, in preparation for what you will need in the next few months.

This will guarantee you your current pricing and just as importantly stock of the product when you need it, we will hold this for you and only invoice it when required on a call off type basis. We will also be happy to discuss longer term contracts or call off orders for 6-12 months which is becoming ever more popular to give you consistency of supplies.

### PRINTERS / MOBILE DEVICES & SCANNERS

We also have highlighted some products and brands in the hardware section that include Printers / Mobile Devices and Barcode Scanners that could also be effected by a hard Brexit so any plans you may have

buying hardware would be worth knowing now.

## WHAT WE ARE DOING

We will of course be increasing our stock holdings across a range of our most popular products to help spread any risk and to ensure we continue to supply our customers with the service they have come to expect from Supplyline ID and to cover the busy Christmas periods as well as Brexit.

**We appreciate you have enough to worry about with your own Brexit concerns and we are all in limbo with what may or may not happen, but we would welcome any feedback in helping us provide you the "Quality of Service" you expect from us and what Supplyline ID are famous for.**
