# Epson **TM-m50II (102A0): Serial + USB + Ethernet + NES, Black, PS, UK**

The TM-m50II has been developed for retailers looking for a stylish and compact receipt printer that will fit in with their current POS system.

The TM-m50II provides similar capabilities to a traditional 'legacy' POS printer, including a serial connection port, USB-A, USB-B, Ethernet connections and 180dpi. High volume POS customers will benefit from fast print speeds of up to 500mm/s, and be confident that the printer is supported by Epson's proven quality and reliability.

Compact cube design
The cube design, available in white or black, means it will complement the aesthetics of any modern retail store, and the small footprint means it can fit easily on the counter-top or underneath on the shelf edge.

Reliable
In fast paced environments, it's essential to minimise downtime. Epson is the market leader in POS printing[1] with a heritage of producing high-quality and reliable systems, making the TM-m50II a dependable solution.

Legacy print features
The TM-m50II is a feature packed, high performance solution with the legacy features required to allow customers seamless integration into their current systems.

Easy to use
The TM-m50II is a highly intuitive out-of-the-box solution with flexible drop-in paper loading (front or top) and advanced paper saving options.

Enhanced connectivity
Flexible connectivity options include serial port, USB-B, Ethernet and USB-A.

Speed
The TM-m50II provides high-efficiency throughput at print speeds up to 500mm/s[2] , offering fast cheque processing and a swift auto-cutter.

KEY FEATURES

- **Cube design**
  Stylish and discreet form to complement retail environments
- **Legacy fit**
  Seamless integration into existing systems
- **Easy to use**
  A highly intuitive out-of-the-box solution
- **Connectivity**
